

**The [Mobile Computers Market](#) is projected to reach \$3.3 billion by 2029, at a CAGR of 7.4% from 2022 to 2029.** The rising need to eliminate manual data capture & entry errors, growing government initiatives supporting the use of AIDC technologies, and the increasing demand for mobile computers among warehouses and distribution centers are the factors attributed to the growth of this market. However, cybersecurity concerns restrain the growth of the global mobile computers market. The diversified inclusion of mobile computers in the healthcare sector is expected to create opportunities for the players operating in this market. However, unreliable network connectivity is a major challenge for market growth.

**Here are the top 10 companies operating in the [Mobile Computers Market](#)**

### **Zebra Technologies Corporation**

Founded in 1969 and headquartered in Illinois, U.S., Zebra Technologies Corporation is a provider of AIDC products, such as mobile computers, barcode scanners, radio frequency identification (RFID) readers, specialty printers for barcode labeling and personal identification, real-time location systems (RTLS), and other related accessories & supplies such as self-adhesive labels & consumables, and utilities & application software.

The company provides its products and services to several end users worldwide across the healthcare, retail & e-commerce, energy & utilities, transportation & logistics, hospitality, government, manufacturing, warehouse & distribution, and education sectors. It operates through two business segments, namely, Asset Intelligence & Tracking and Enterprise Visibility & Mobility.

With its subsidiaries, Zebra Technologies has a strong presence across the globe. Some of the subsidiaries of the company are Zebra Retail Solutions, LLC (U.S.), Reflexis Systems (U.S.), Telxon Corp (U.S.), Zebra Technologies India Private Limited (India), and proveo GmbH (Germany). As of 2021, the company had a headcount of 9,800 employees globally.

### **Honeywell International Inc.**

Incorporated in 1885 and headquartered in Delaware, U.S., Honeywell International Inc. is a provider of solutions that improve productivity, workplace safety, and asset performance of customers globally. Honeywell is also a computer hardware company specializing in barcode scanners, mobile computers, printers, RFID, voice direction software, and automation. It has customers across aerospace, automotive, commercial building, healthcare, logistics, manufacturing, oil & gas, medical, retail, supply chain, test & measurement, and transportation industries.

With its subsidiaries and a strong distribution network, the company has a global presence across North America, Europe, Asia-Pacific, Latin America, and the Middle East & Africa. Some of the company's subsidiaries are Honeywell Automation India Ltd. (India) and Novar GmbH (Germany). As of December 2021, the company had a headcount of 99,000 employees globally.

### **Datalogic S.P.A.**

Incorporated in 1972 and headquartered in Italy, Datalogic S.P.A is a provider of barcode readers, mobile computers, detection, measurement & safety, vision sensors, and RFID systems for the automatic data capture and industrial automation markets. It provides these solutions for diverse applications across the retail, transportation & logistics, manufacturing, and healthcare industries. The company operates through two segments—Datalogic and Informatics.

With its distribution network and subsidiaries, Datalogic has a strong geographic presence across North America, Europe, Asia-Pacific, and the rest of the world (RoW). Some of the subsidiaries of the company are SOREDI touch systems GmbH (Germany), Wasp Barcode Technologies, Inc. (U.S.), and Informatics, Inc. (U.S.). As of 2020, the company had a headcount of 2,826 employees globally.

### **Bluebird Inc.**

Incorporated in 1995 and headquartered in Seoul, South Korea, Bluebird Inc. is a manufacturer of mobile computers, RFID solutions, payment terminals, and enterprise tablets. The company also provides solutions for the retail, distribution, transportation, FMCG, restaurant & hospitality, government, finance, healthcare, and manufacturing industries. The company has a global presence across Europe, North America, Asia-Pacific, Latin America, and the Middle East & Africa.

### **Unitech Electronics Co. Ltd.**

Founded in 1979 in Taiwan, Unitech is a global provider of AIDC (Automatic Identification and Data Capture) technologies. It offers a wide range of products, including enterprise mobile computers, rugged handheld PDAs, industrial tablets, barcode scanners, RFID readers, and IoT solutions. The company also offers mobile computers, barcode scanners, RFID solutions, and software solutions as well. In addition, Unitech provides solutions for various industries such as retail, healthcare, hospitality, warehousing, manufacturing, transportation & logistics, government, and field services. With its wide distribution network, the company has a global presence across the Americas, Europe, Africa, Asia-Pacific, and the Middle East.

***“Meticulous Research in its latest publication on [Mobile Computers Market](#) has predicted the growth of 7.4% during the forecast year 2022-2029”***

#### **Winmate, Inc.**

Founded in 1996 and headquartered in New Taipei City, Taiwan (R.O.C.), Winmate Inc. is a computer manufacturing company. The company offers a wide range of products, such as rugged tablets, mobile computers, barcode scanners, and handheld computers. Additionally, it offers services to the warehouse & logistics, food & hygienic, healthcare, heavy-duty, and transportation sectors. With its subsidiaries and distribution network, the company has a strong global presence across Europe, North America, the Middle East & Africa, Asia-Pacific, and Latin America. Some of the company's subsidiaries are Winmate USA (U.S.), Winmate TTX (Canada), Winmate Germany (Germany), Winmate Poland Service Center (Poland), and Winmate China Office & Service Center (China).

#### **JLT Mobile Computers AB**

Founded in 1994 and headquartered in Växjö, Sweden, JLT Mobile Computers AB is a provider of vehicle mount computers, tablets, handheld computers, and aftersales services. The company provides its products and services to several end-use industries worldwide across the warehouse, agriculture, manufacturing, mining, ports, and transportation sectors. With its subsidiaries, the company has a strong presence across the Nordic countries, European Union (EU), and the U.S. Some of the subsidiaries of the company are JLT Mobile Computers Sweden Ab (Sweden), CMC Mobile Computing (U.K.), Gandalf Itech AB (Sweden). As of 2021, the company had a headcount of 28 employees globally.

#### **Handheld Group**

Founded in 1997 and headquartered in Lidköping, Sweden, Handheld Group is a provider of a leading manufacturer of rugged mobile computers. The company is privately held and has partnerships worldwide to deliver mobility solutions to businesses within the geomatics, logistics, forestry, public transportation, utilities, construction, maintenance, mining, military, and security sectors. Handheld Group has subsidiaries in Finland, the U.K., the Netherlands, Italy, Germany, Switzerland, Australia, and the USA. Some of its major subsidiaries are Handheld Europe AB, handheld Scandinavia AB, handheld Finance AB, HHCS handheld Finland Oy, and Handheld US Inc.

#### **Denso ADC**

Founded in 1949 and headquartered in California, U.S., Denso ADC is the sales division of Denso Wave Corporation in the Americas and part of the global

DENSO network. In addition to automatic data capture, DENSO companies provide advanced components and systems to the automotive industry (DENSO's core business) as well as robotics products for telecommunications. The DENSO companies employ 170,000 people in research, manufacturing, and sales at 200 locations worldwide. The company offers products in retail & commercial, manufacturing & warehouse, transportation & logistics, healthcare & medical, events & entertainment end-use industries. The company has a strong geographic presence in Japan, North America, Europe, and Asia.

### **Newland EMEA**

Founded in 2009 and headquartered in Culemborg, Netherlands, Newland EMEA is engaged in designing and manufacturing automatic identification and data capture (AIDC) technologies worldwide. It offers a wide range of products, including micro kiosks, handheld scanners, and stationary scanners. With its strong distribution network, the company has a global presence across North America, Europe, the Middle East & Africa, and Asia-Pacific. Some of the company's distributors are Advania (Iceland), AIDC (Finland), Barcode Connexions (U.K.), and Compart International Poland (Poland).
